MESSAGE FROM THE CEO

The South African Fresh Produce Exporters' Forum (FPEF) is delighted to present the 2021 edition of the Fresh Produce Export Directory. This unique directory is published annually as a service to and a source of information for the international fresh produce trading community.

The FPEF is a voluntary, non-profit organisation with more than 140 members. FPEF members consist of fresh produce exporters, producer-exporters, pack houses, logistics and other service providers.

The FPEF Export Directory contains comprehensive information about South African fresh fruit and vegetable exports, including the contact details of FPEF members – updated regularly on the FPEF website: www.fpef.co.za. The publication features different kinds of fruit and vegetables and provides the latest statistics about South African fresh fruit and vegetable export volumes, export periods and export destinations.

We trust that the information provided in this edition of the Export Directory will be of value to you in your trade relations with the South African fresh produce export industry.

Please note that the information in this directory was correct at the time of publication. Should information change, the digital version will be updated on our website.

Anton Kruger

Chief Executive Officer (CEO)

Fresh Produce Exporters' Forum (FPEF)

OVERVIEW OF SOUTH AFRICA AND THE FRESH PRODUCE INDUSTRY

South Africa is located at the southernmost tip of Africa. With more than 50 million inhabitants of varying cultures, origins and languages; it is a country rich in opportunity. The country is surrounded by almost 3 000 kilometres of coastline, and bordered in the north by Zimbabwe, Botswana, Mozambique and Namibia. Prominent harbours for South African fresh produce exports include the ports of Cape Town, Port Elizabeth and Durban.

The winter season in South Africa falls between May and August, whereas summer begins mid-October and lasts until the end of February. Summers are characterised by long, hot and sunny days; often with afternoon thunderstorms in the central and northern regions of the country. The coastal areas experience less adverse weather conditions and are prone to more stable environments.

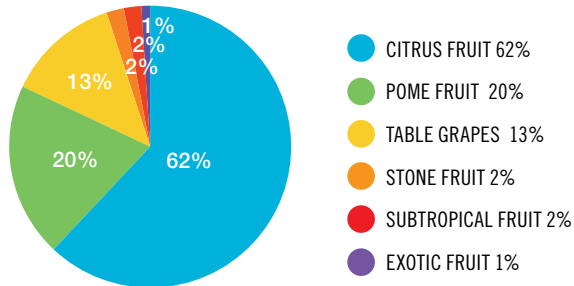

Widely regarded as an emerging market, South Africa has a well-established and highly functional financial system, which is backed by the South African

Reserve Bank. The local currency is the South African Rand (ZAR), which offers visitors and investors great value for money.

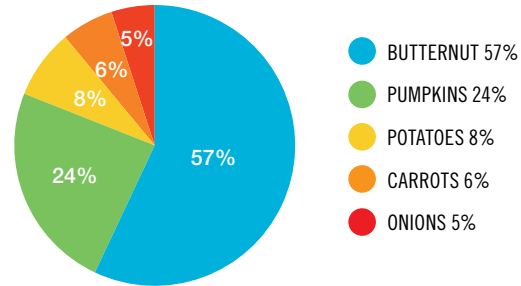

Following the first democratic elections in 1994, the deregulation of the fruit industry in 1997 paved the way for free market fresh produce trade between South Africa and the rest of the world.

Today, fresh fruit accounts for approximately 35% of South African agricultural exports. South Africa is also the second largest exporter of citrus fruit, worldwide. Along with citrus, other fruit exports include pome fruit, stone fruit, table grapes, subtropical fruit and exotic fruit; exported to more than 100 countries. Vegetables are also exported from South Africa. The economic value generated from these exports is in excess of \$3.3 billion.

OVERVIEW OF THE FRESH PRODUCE EXPORTERS' FORUM

The Fresh Produce Exporters' Forum (FPEF) is a voluntary, non-profit organisation with more than 140 members, accounting for about 90% of fresh fruit exported from South Africa. The FPEF is also a member of Fruit South Africa, together with the country's main growers' associations. This position strengthens the FPEF's role of providing leadership and services to its members, the international buying community and the fresh produce export industry as a whole.

FPEF members consist of fruit and vegetable exporters, producer-exporters, export and marketing agents, pack houses, logistics and other service providers. Whilst membership is voluntary and open to all South African fresh produce exporting companies and industry service providers; strict accreditation criteria and a Code of Conduct apply to ensure that only competent and reliable marketing agents, grower-exporters and other service providers are accepted as members of the Forum.

The FPEF is registered with the Department of Trade, Industry and Competition (dtic) as the official Fresh Produce Export Council in South Africa. This enables the FPEF to raise funds for the export industry to ensure participation in major international trade fairs like Fruit Logistica Berlin and Asia Fruit Logistica, whilst participation in other international trade fairs and events are funded by the industry. The annual FPEF Export Directory is distributed during such events to help raise awareness of South African fresh produce.

Essentially a service organisation, some of the FPEF's services include generic promotions in new and existing markets, the distribution of information to members and representation of the industry in relevant committees. The FPEF also provides a training programme, market access support for emerging farmers and exporters and an internship programme for graduates seeking employment in the fresh produce export industry. In addition, the FPEF manages the Post-Harvest Innovation (PHI) Programme. The PHI programme is a successful public-private partnership; focused on post-harvest research projects across a range of industries within the South African horticultural sector.

The FPEF is a pivotal link between Government and the industry regarding market access and related matters. More than anything, the FPEF intends to create value for its members to help ensure a profitable, sustainable and globally competitive fresh produce export industry.

Inspired by nature. Driven by passion.

FRESHGOLD

We source only the finest quality fruit from around the globe. Only the best fruit is good enough for our Freshgold cartons.

We have a well established reputation as the market leaders in creating lasting relationships with both producers and clients.

Our world class service and the Freshgold mark of quality ensures the integral link between farmers and retailers remains fruitful.

citrus fruit

oranges

lemons

grapefruit

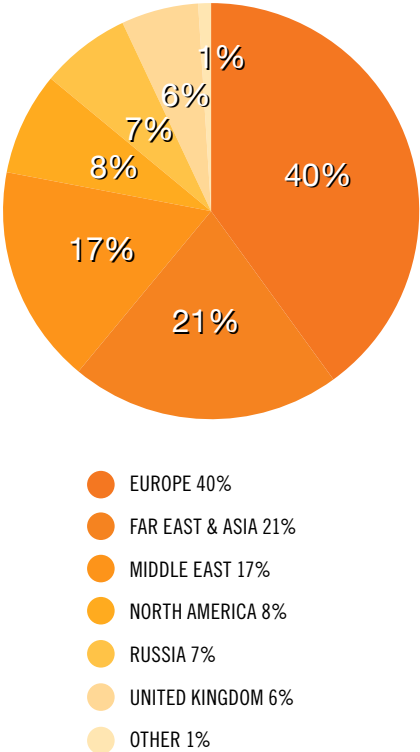

soft citrus

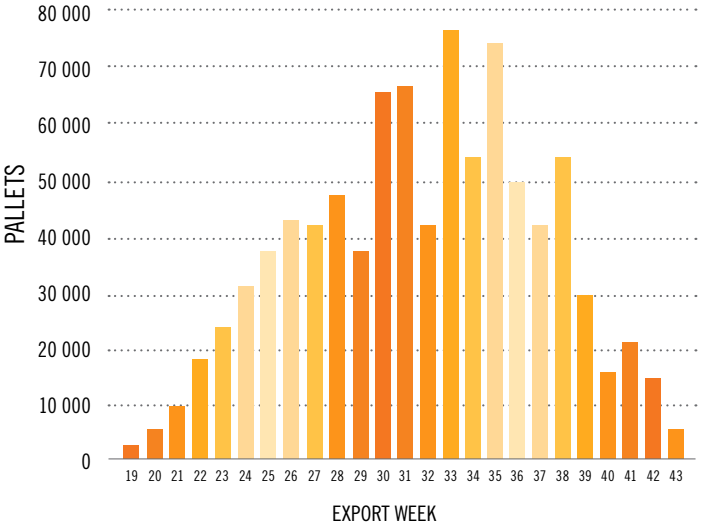

The image features a large, realistic orange on the right side, set against a background of repeating circular patterns. Each pattern consists of concentric rings in shades of orange and red, with a central green dot, all on a green background with a fine black dot pattern. The word "oranges" is written in white lowercase letters across the middle-left of the image.

LEMON HARVEST PERIOD

A whole, ripe grapefruit is positioned on the right side of the image. The background is a vibrant yellow fabric with a repeating pattern of dark green, stylized leaves and orange-red, spiral-shaped flowers. The word "grapefruit" is printed in a clean, white, sans-serif font across the middle-left portion of the image, partially overlapping the patterned background.

A close-up photograph of a single, ripe mango. The mango is positioned on the right side of the frame, showing its characteristic teardrop shape and a smooth, yellowish-orange skin. It is set against a vibrant red background that is covered in a dense, repeating pattern of white and black floral and geometric motifs. The word "mangoes" is printed in a clean, white, sans-serif font, centered horizontally and partially overlapping the mango and the patterned background.

The image features four dark red, glossy cherries with green stems, scattered across a vibrant yellow background. The background is decorated with a repeating pattern of stylized orange and yellow flowers and leaves, set against a dark, dotted texture. The word "cherries" is written in a clean, white, sans-serif font, positioned in the lower-left quadrant of the image.

FOR AN OUT OF THE BLUE EXPERIENCE

BerryWorld

Established in 1993, BerryWorld South Africa has become the largest blueberry exporter in South Africa.

As well as domestically, we supply across Europe and the Far and Middle East.

- 1 Expert grower base
- 2 Dedicated R&D facilities
- 3 Access to exclusive genetics
- 4 Low and high chill sites
- 5 Extensive production
- 6 Premium quality fresh offer
- 7 Own-label and branded expertise

SUSTAINABILITY INITIATIVE OF SOUTH AFRICA (SIZA)

Ensuring World-Class Agricultural Products

SIZA, the Sustainability Initiative of South Africa, supports growth, sustainability, and productivity by caring for the environment, respecting the rights of workers, and initiating safe working and living conditions to ensure world-class agricultural products for the local and global market.

Local and International Recognition

SIZA is a multisector, agri-wide South African standard, developed, owned, and operated from within South Africa. SIZA is aligned to global best practices on both social (ethical) compliance and environmental assurance which relates into recognition and equivalence in more than 17 countries. SIZA has endorsed a credible third-party social and environmental audit programme with audits conducted by recognised audit companies. SIZA is focused on continuous improvement and drives a cost-effective business approach by supplying one ethical and one environmental audit for growers in South Africa and neighbouring countries.

Information Exchange

SIZA has an effective and modern data platform, called *MySIZA*, which is used for managing and sharing data on social practices and environmental assurance throughout the value chain.

Environmental Assurance

The SIZA Environmental programme offers a standalone or a combined solution third-party audit methodology to members who need to complete the GLOBALG.A.P. Integrated Farm Assurance (IFA) audit as well as SIZA Environmental. While the combined audit takes place at the same time, two separate audit reports are generated, and the environmental report is uploaded to *MySIZA* to ensure visibility to multiple buyers.

Beyond Audits / Remedy — Showcasing Best Practices and Creating a Balanced View

SIZA's Beyond Audit programme promotes and acknowledges best practices that are implemented by producers beyond the audit process, where they have achieved more than compliance and create value. Remedy is part of corrective actions to ensure continuous improvement.

Contact: www.siza.co.za or retha@siza.co.za

"The aim of SIZA is to always drive continuous improvement whilst ensuring compliance to legislation and the SIZA social and environmental standard."
